### Lt. E.C. Jordan's 398th Bomb Group - 603rd Squadron Combat Missions

**Lt. E.C. Jordan Combat Mission Notes:**

1. The above table lists Lt. E.C. Jordan's 28 combat missions along with three designated non-combat missions or activities.

The three designated non-combat missions were: 1) 4 May Practice Mission, 2) 8 May 1944 - Berlin as a Spare but not needed, and 3) 1 Sept 1944 - aborted mission to Ludwigshafen, see below.

2. Lt. E.C. Jordan was originally with the Hopkins crew. He then flew with several different pilot's, helped break in new crews, and finally had his own crew.

2. CA: Commader of Aircraft. Generally a Captain or Major who had responsibility for the Squadron or Group.

3. FC: Formation Control. When a CA was aboard the usual Co-Pilot flew in the tail gunner's position and relayed observations to the CA.

4. Three times (28 May, 5 and 12 June), Lt. E.C. Jordan flew when CA's were aboard.

5. The records for the three CA flights had E.C. Jordan in tail gunner position one time and the other two times as Co-Pilot. However, he was most likely in the Tail Gunner Position as Formation Control for all three CA missions.

6. Lt. E.C. Jordan took over the original Scott/Spitzer crew on 3 August 1944.

7. After 15 June, Lt. E.C. Jordan flew several missions to help break in new crews. For example, the Newman crew on 8 August.

6. The Mellis Diary for 1 September 1944, a 603rd co-pilot indicated they turned around west of Paris due to bad weather at the target which was Ludwigshafen.

7. Lt. E.C. Jordan had 5:10 hours that 1 September 1944 so he was probably on his way to Ludwigshafen also. Since no bombs dropped it was not an official combat mission.

8. E.C. Jordan completed his 28 required missions on 3 September 1944.

9. 13 September 1944: E.C. Jordan officially completed tour of duty.

10. The above information was researched and compiled from the 398th BG Maxwell AFB microfilm by Dave Jordan in October 2008.

11. Prints best on Legal Size Paper, 8.5x14.
